

CHAPTER 21**FACULTY OF HEALTH AND ENVIRONMENTAL SCIENCES**

DEAN	Prof. SS Mashele, PhD (Medunsa)
SECRETARY	Ms NC Nigrini, BA (UFS), BTech (CUT)
FACULTY ADMINISTRATOR	Vacant
FACULTY OFFICER	Mr FR Mokoena, BTech (CUT)
RESEARCH MANAGER	Dr MM Sedibe, BSc Hons (NWU), MSc (US), PhD (UFS)
DEPARTMENT OF HEALTH SCIENCES	
ACTING HEAD OF DEPARTMENT	Dr D Olivier, DTech (CUT)
PROFESSORS / ASSOCIATE PROFESSORS	Prof. WMJ van den Heever-Kriek, PhD (UFS) Prof. SS Mashele, PhD (Medunsa)
SENIOR LECTURERS	Dr E de J Vermaak, DTech (CUT) Dr L Botes, DTech (CUT) Dr D Olivier, DTech (CUT)
LECTURERS	Mr LF Mogongoa, MTech (CUT) Mr PM Makhoahle, MMedSc, BSc, BMed Hons (UFS) Ms M Vosloo, MTech (CUT), CIDESCO Ms MK Wiese, MTech (CUT) Ms S Jacobs, MTech (CUT)
JUNIOR LECTURERS	Mr SD Mokgawa, NDip (TNG), BSc, BSc (Med) Hons (Medunsa) Ms TM Boshoff, BTech (CUT), CIDESCO Ms J Badenhorst, BTech (CUT), CIDESCO Ms J Jonker, BTech (CUT), CIDESCO Ms R Banda, BTech (CUT), CIDESCO
TECHNICAL ASSISTANT	Ms DE Rampana, BTech (CUT)
LABORATORY ASSISTANT	Ms M van Wyk, NDip (CUT), CIDESCO
SENIOR ADMINISTRATIVE ASSISTANT	Ms SA van den Berg, NCert (PTC)
CLINICAL PRACTICE OFFICER	Mr MJ Mabote, BTech (CUT)

DEPARTMENT OF CLINICAL SCIENCES

HEAD OF DEPARTMENT	Prof. HS Friedrich-Nel, PhD (UFS)
PROFESSOR / ASSOCIATE PROFESSOR	Prof. HS Friedrich-Nel, PhD (UFS)
LECTURERS	Dr JGE du Plessis, PhD, MHES (UFS) Ms B van der Merwe, MTech (CUT), PhD (UFS) Mr RS Slabbert, BMedSc Hons (UFS), MTech (CUT) Dr SF Raphela, DTech (CUT)
JUNIOR LECTURERS	Ms M van Eeden, BTech (DUT) Ms B Kotze, BTech (CUT) Ms L du Plessis, BTech (DUT) Ms IK Sebelego, BTech (CUT) Ms I von Gericke, BTech (CUT) Ms P Ntsoelinyane, MTech (CUT) Mr JJ Jansen van Vuuren, BTech (DUT)
TECHNICAL ASSISTANT	Mr T Makhele, BTech (CUT)
SENIOR ADMINISTRATIVE ASSISTANT	Ms MN Molefi, NDip (Motheo)

DEPARTMENT OF AGRICULTURE

ACTING HEAD OF DEPARTMENT	Prof. C van der Westhuizen, PhD (UFS)
PROFESSORS / ASSOCIATE PROFESSORS	Prof. PJ Fourie, NHDip (TSA), DTech (CUT), MDP (UFS) Prof. DO Umesiobi, PhD (FUTO), MAHES (UFS)
SENIOR LECTURER	Dr MM Sedibe, BSc Hons (NWU), MSc (US), PhD (UFS)
LECTURERS	Dr RJ Pretorius, MTech (CUT), PhD (NE) Mr PZ Khetsha, MTech (CUT)
SENIOR ADMINISTRATIVE ASSISTANT	Ms MB Kotsi, NDip (CUT)

DEPARTMENT OF LIFE SCIENCES

HEAD OF DEPARTMENT	Dr N Malebo, PhD (UFS)
PROFESSORS / ASSOCIATE PROFESSORS	Prof. JFR Lues, PhD (UFS) Prof. AM Pretorius, PhD (UFS) Prof. A Fossey, DSc (UP)
SENIOR LECTURERS	Dr HA Roberts, DTech (CUT) Dr C Weyers, DTech (CUT)

RESEARCHER

Dr O de Smidt, PhD (UFS)

LECTURERS

Dr L Esterhuizen, DTech (CUT)

Mr HCL Gleimius, MTech (CUT)

1. RULES OF THE FACULTY OF HEALTH AND ENVIRONMENTAL SCIENCES

The following rules are supplementary to the rules in the Calendar of the Central University of Technology, Free State (CUT):

2. ADMISSION TO A HIGHER LEVEL OF STUDY

A student is not permitted to continue with an instructional offering at the subsequent level before successfully completing the preceding level.

In the case of semester programmes, a full-time student may not at any stage accumulate more than two minor instructional offerings being carried over from previous years of study. To progress to the subsequent level of study, the student must have passed at least two instructional offerings.

In the case of year programmes, a full-time student may not at any stage accumulate more than two instructional offerings being carried over from previous years of study.

3. ASSESSMENT

Assessment dates and course mark formulas are provided to students upon commencement of the instructional offering concerned.

A student who is absent from an assessment must submit a medical certificate to the relevant Head of Department (HoD) within three days after reporting back at CUT in order to qualify for a rewrite of the test. The student is responsible for arranging a date for such a re-assessment with the lecturer concerned. Course marks may not be calculated from fewer than the prescribed number of assessments. If a student fails to make arrangements to rewrite an assessment, a mark of zero (0) is entered into the ITS system.

In addition to the rules in the CUT Calendar, a student may be refused admission to an assessment if he/she has been absent from more than one practical in a learning unit.

4. ADVANCED DIPLOMA

A student enrolling at CUT initially registers for a three-year national diploma. Admission to the fourth year of study is subject to certain prerequisites (refer to the specific learning programme). Re-entry to CUT in order to complete an advanced diploma subsequent to the attainment of a national diploma is considered a new application. A part-time student follows the same procedure, with the exception that the duration of study differs from that applicable to full-time students.

5. BACCALAUREUS TECHNOLOGIAE DEGREE

A student enrolling at CUT initially registers for a three-year national diploma. Admission to the fourth year of study is subject to certain prerequisites (refer to the specific learning programme). Re-entry to CUT in order to complete a Baccalaureus Technologiae degree subsequent to the attainment of a national diploma is considered a new application. A part-time student follows the same procedure, with the exception that the duration of study differs from that applicable to full-time students.

6. HIGHER CERTIFICATE PROGRAMME OFFERED IN THE FACULTY

Higher Certificate: Dental Assisting

7. NATIONAL DIPLOMA: EXTENDED CURRICULUM PROGRAMMES (ECPS) OFFERED IN THE FACULTY

National Diploma: Biomedical Technology (ECP)

National Diploma: Clinical Technology (ECP)

National Diploma: Emergency Medical Care (ECP) (*Phased out*)

National Diploma: Environmental Health (ECP) (*Phased out*)

National Diploma: Radiography (Diagnostic) (ECP) (*Phasing out*)

National Diploma: Somatology (ECP)

8. NATIONAL DIPLOMA PROGRAMMES OFFERED IN THE FACULTY

National Diploma: Agricultural Management

National Diploma: Biomedical Technology

National Diploma: Clinical Technology

National Diploma: Emergency Medical Care (*Phasing out*)

National Diploma: Environmental Health

National Diploma: Radiography (Diagnostic) (*Phasing out*)

National Diploma: Somatology

9. ADVANCED DIPLOMA OFFERED IN THE FACULTY

Advanced Diploma in Agricultural Extension

10. BACCALAUREUS TECHNOLOGIAE DEGREES OFFERED IN THE FACULTY

Baccalaureus Technologiae: Agricultural Management

Baccalaureus Technologiae: Biomedical Technology

Baccalaureus Technologiae: Clinical Technology

Baccalaureus Technologiae: Environmental Health

Baccalaureus Technologiae: Radiography (Diagnostic)

Baccalaureus Technologiae: Radiography (Therapy)

Baccalaureus Technologiae: Somatology

11. BACHELOR'S DEGREE: EXTENDED CURRICULUM PROGRAMME (ECP) OFFERED IN THE FACULTY

Bachelor of Radiography in Diagnostics (ECP)

12. BACHELOR'S DEGREE OFFERED IN THE FACULTY

Bachelor of Radiography in Diagnostics

13. MAGISTER TECHNOLOGIAE DEGREES OFFERED IN THE FACULTY

Magister Technologiae: Agriculture (*Phasing out*)

Magister Technologiae: Biomedical Technology (*Phasing out*)

Magister Technologiae: Clinical Technology (*Phasing out*)

Magister Technologiae: Environmental Health (*Phasing out*)
Magister Technologiae: Radiography (Diagnostic) (*Phasing out*)
Magister Technologiae: Radiography (Therapy) (*Phasing out*)
Magister Technologiae: Radiography (Nuclear Medicine) (*Phasing out*)
Magister Technologiae: Somatology (*Phasing out*)

14. MASTER'S DEGREES OFFERED IN THE FACULTY

Master of Agriculture
Master of Health Sciences in Biomedical Technology
Master of Health Sciences in Clinical Technology
Master of Health Sciences in Environmental Health
Master of Health Sciences in Radiography
Master of Health Sciences in Somatology

15. DOCTOR TECHNOLOGIAE DEGREES OFFERED IN THE FACULTY

Doctor Technologiae: Agriculture
Doctor Technologiae: Biomedical Technology (*Phasing out*)
Doctor Technologiae: Clinical Technology (*Phasing out*)
Doctor Technologiae: Environmental Health
Doctor Technologiae: Somatology (*Phasing out*)

16. DOCTORATE DEGREES OFFERED IN THE FACULTY

Doctor of Health Sciences in Biomedical Technology
Doctor of Health Sciences in Clinical Technology
Doctor of Health Sciences in Somatology

17. NATIONAL DIPLOMAS: EXTENDED CURRICULUM PROGRAMMES (ECPs)

17.1 NATIONAL DIPLOMA: BIOMEDICAL TECHNOLOGY (ECP) HXNDBA

This learning programme will be offered in Bloemfontein.

REMARKS

Upon commencing his/her studies, the student must register with the Professional Board for Medical Technology of the Health Professions Council of South Africa in terms of the rules and regulations of the Medical, Dental and Supplementary Health Services Professions Act, 1974 (Act 56 of 1974), and the subsequent amendments pertaining to medical technology, as approved.

Work-integrated learning takes place only at approved accredited laboratories identified by CUT and the Professional Board for Medical Technology. A student with outstanding exit-level subjects may not be eligible for work-integrated learning placement.

Upon successful completion of this qualification, the National Diploma will be awarded during an official graduation ceremony of CUT.

Admission requirements

A National Senior Certificate or equivalent qualification.

For candidates who matriculated in 2007 or before:

In addition to the general admission requirements, a minimum mark of 50% on standard grade or 40% on higher grade in all three of the following subjects is required: Biology/Physiology, Physical Sciences, and Mathematics.

For candidates who completed the NSC in 2008 and thereafter:

In addition to the general admission requirements, a minimum mark of 50% in Life Sciences (rating 4) **and** Physical Sciences (rating 4), **as well as** a minimum mark of 40% in Mathematics (rating 3) and English (rating 3), is required.

A candidate must successfully complete the selection process for admission to this learning programme. A candidate is required to submit proof of job shadowing at an accredited diagnostic laboratory.

Applicants in possession of the National Certificate Vocational (NCV) will be selected according to the selection requirements as approved by Senate.

A candidate might be recommended for, and must successfully complete, a selection process and selection test for admission to the learning programme, and meritorious exceptions may be considered for the Extended Curriculum Programme (ECP).

Provisionally selected students are subject to a second round of selections after submission of the NSC results. Should a prospective student have forfeited his/her selection, he/she might be considered for the limited number of ECP placements.

PREREQUISITES

Admission to a higher level of study

Considering that the ECP is subject to additional funding being made available by the Department of Higher Education and Training (DHET), a student will not be allowed to repeat the first year or part of the first year of the ECP.

A student must pass all first-year instructional offerings in order to continue with the second-year instructional offerings of the ECP. A student may not change from the ECP to the regular programme.

Refer to paragraph 1 under the heading “Admission to a higher level of study” (point 11 of this chapter).

Academic Literacy and Communication Studies requires the successful completion of two instructional offerings, A and B, in this specific order.

A distinction (75% or more) in instructional offering A ensures exemption from instructional offering B. A pass (without distinction) means that the student must pass instructional offering B in order to meet the prerequisites for the learning programme. Failing instructional offering A means that the student must re-register for instructional offering A in a subsequent semester.

No student will be allowed to graduate without completing the Academic Literacy and Communication Studies programme.

REMARKS

Upon commencing his/her studies, the student must register with the Professional Board for Radiography and Clinical Technology of the Health Professions Council of South Africa (HPCSA) in terms of the rules and regulations of the Medical, Dental and Supplementary Health Services Professions Act, 1974 (Act 56 of 1974), and the subsequent amendments pertaining to clinical technology, as approved. Instructional offerings at fourth-year level of the ECP are offered together with Work-integrated Learning in an accredited training unit and in a specific category, as approved by the Professional Board for Radiography and Clinical Technology, in collaboration with CUT and the employer. The student must comply with 1 800 hours for the year, set as the minimum requirement by die HPCSA.

Upon successful completion of this qualification, the National Diploma will be awarded during an official graduation ceremony of CUT.

Admission requirements

A National Senior Certificate or equivalent qualification.

For candidates who matriculated in 2007 or before:

In addition to the general admission requirements, a minimum mark of 50% on standard grade or 40% on higher grade in all three of the following subjects is required: Biology/Physiology, Physical Sciences and Mathematics.

For candidates who completed the NSC in 2008 and thereafter:

***Work-integrated Learning credits reflected in module instructional offerings.**

REMARKS

Upon commencing his/her studies, the student must register with the Professional Board for Emergency Care of the Health Professions Council of South Africa in terms of the rules and regulations of the Medical, Dental and Supplementary Health Services Professions Act, 1974 (Act 56 of 1974), and the subsequent amendments pertaining to emergency care, as approved.

Work-integrated learning is conducted at approved units identified by CUT and the Professional Board for Emergency Care. The student will be expected to undertake his/her work-integrated learning according to a formal roster system managed by the learning programme, which includes working over weekends and during academic recesses. The student is expected to comply with the guidelines and code of conduct specified in the programme's standard operating procedures and the subsequent amendments pertaining to programme requirements, as approved.

Upon successful completion of this qualification, the National Diploma will be awarded during an official graduation ceremony of CUT.

Admission requirements

A National Senior Certificate or equivalent qualification.

For candidates who matriculated in 2007 or before:

In addition to the general admission requirements, a minimum mark of 50% on standard grade in at least **two** of the following subjects is required: Mathematics, Physical Sciences, and/or Biology/Physiology. Candidates must also successfully complete the selection process – which includes a fitness test, medical examination and psychological assessment – for admission to the programme.

For candidates who completed NSC in 2008 and thereafter:

In addition to the general admission requirements, a minimum mark of 50% in **two** of the following subjects is required: Life Sciences, Physical Sciences and/or Mathematics, or Mathematical Literacy

(60%). Candidates must also successfully complete the selection process – which includes a fitness test, medical examination and psychological assessment – for admission to the programme.

Applicants in possession of the National Certificate Vocational (NCV) will be selected according to the selection requirements as approved by Senate.

Optional instructional offerings

All instructional offerings are compulsory.

PREREQUISITES

Admission to a higher level of study

Considering that the ECP is subject to additional funding being made available by the Department of Higher Education and Training, a student will not be allowed to repeat the first year or part of the first year of the ECP.

A student must pass all instructional offerings of the first year of the ECP in order to continue with the subsequent year of study. A student may not change from the ECP to the regular programme.

Refer to paragraph 1 under the heading “Admission to a higher level of study” (point 11 of this chapter).

In all four years of the programme, a student must meet the minimum physical fitness requirements before undertaking the practical phase of a rescue module.

A student may not register for minor instructional offerings or modules in a subsequent level of study in cases where timetabling conflicts occur. The student must first complete ALL major instructional offerings with his/her module instructional offerings at a particular level of study before progressing to the next level of study. The learning programme is structured in such a way that instructional offerings and modules from previous levels are assumed to be in place, and instructional offerings and modules on subsequent levels are expected to build on previously acquired knowledge, skills and attributes.

Academic Literacy and Communication Studies requires the successful completion of two instructional offerings, A and B, in this specific order.

A distinction (75% or more) in instructional offering A ensures exemption from instructional offering B. A pass (without distinction) means that the student must pass instructional offering B in order to meet the prerequisite for the learning programme. Failing instructional offering A means that the student must re-register for instructional offering A in a subsequent semester.

No student will be allowed to graduate without completing the Academic Literacy and Communication Studies programme.

REMARKS

Upon commencing his/her studies, the student must register with the Professional Board for Environmental Health Practitioners of the Health Professions Council of South Africa, as stipulated in Government Gazette R1869, dated 79.08.24.

At least 25 working days during the second and third years of study and at least 40 working days in the fourth year of study in the ECP are to be completed under the supervision of a registered environmental health practitioner.

Instructional offerings at all levels are assessed internally by CUT. Third-level instructional offerings, however, are moderated externally. Practical assessments in the instructional offering Food and Meat Hygiene III are conducted internally by CUT.

In cases where a practical assessment is administered, the final assessment mark is awarded for both the theory and practical components.

Directly upon receiving the National Diploma, all students are expected to perform 12 months of compulsory community service.

Upon successful completion of this qualification, the National Diploma will be awarded during an official graduation ceremony of CUT.

Physical, chemical and biological stressors to which students are exposed may be detrimental to the health of an unborn child. Due to the important practical component of the programme, during which students are exposed to various physical, chemical and biological stressors, a female student is not permitted to complete the practical section of the programme during pregnancy. Any student who suspects she may be pregnant must notify the relevant Head of Department immediately. Such a student must discontinue Food & Meat Hygiene III (VVH30AT) (if registered). It is also recommended that the student discontinues the following instructional offerings (if registered) for the full duration of her pregnancy:

- MBO10AT Microbiology I
- BGV 20AT Occupational Health & Safety II
- OAW20AT Environmental Pollution: Waste & Water II
- BGV30AT Occupational Health & Safety III

Admission requirements

A National Senior Certificate or equivalent qualification.

For candidates who matriculated in 2007 or before:

In addition to the general admission requirements, a minimum mark of 50% on standard grade in any **two** of the following subjects is required: Biology, Physical Sciences and Mathematics. Geography and/or Physiology are recommended.

For candidates who completed the NSC in 2008 and thereafter:

In addition to the general admission requirements, a minimum mark of 50% in both Life Sciences **and** Physical Sciences, **as well as** a minimum mark of 40% in Mathematics.

A candidate might be recommended for, and must successfully complete, a selection process for admission to the learning programme, and meritorious exceptions may be considered for the ECP.

Applicants in possession of the National Certificate Vocational (NCV) will be selected according to the selection requirements as approved by Senate.

A candidate might be recommended for, and must successfully complete, a selection process and selection test for admission to the learning programme, and meritorious exceptions may be considered for the ECP.

Provisionally selected students are subject to a second round of selections after submission of the NSC results. Should a prospective student have forfeited his/her selection, he/she might be considered for the limited number of ECP placements.

Optional instructional offerings

All instructional offerings are compulsory.

PREREQUISITES

Admission to a higher level of study

Considering that the ECP is subject to additional funding being made available by the Department of Higher Education and Training, a student will not be allowed to repeat the first year or part of the first year of the ECP.

A student must pass all instructional offerings of the first year of the ECP in order to continue with the subsequent year of study. A student may not change from the ECP to the regular programme.

A student is not permitted to continue with an instructional offering at a particular level before successfully completing the preceding level.

Academic Literacy and Communication Studies requires the successful completion of two instructional offerings, A and B, in this specific order.

A distinction (75% or more) in instructional offering A ensures exemption from instructional offering B. A pass (without distinction) means that the student must pass instructional offering B in order to meet the prerequisite for the learning programme. Failing instructional offering A means that the student must re-register for instructional offering A in a subsequent semester.

No student will be allowed to graduate without completing the Academic Literacy and Communication Studies programme.

REMARKS

Upon commencing his/her studies, the student must register with the Professional Board for Radiography and Clinical Technology of the Health Professions Council of South Africa in terms of the rules and regulations of the Medical, Dental and Supplementary Health Services Professions Act, 1974 (Act 56 of 1974), and the subsequent amendments pertaining to radiography, as approved.

Work-integrated learning is conducted simultaneously with formal training in a training unit, as approved by the Professional Board for Radiography and Clinical Technology, from the second year of the ECP. The student is placed as a student radiographer at an accredited hospital and undergoes work-integrated learning for a specific number of hours, as prescribed by the Professional Board for Radiography and Clinical Technology. The work-integrated learning component can make it practically impossible for a student to take instructional offerings on two academic levels in a single academic year. A student who fails is assessed on an individual basis in respect of the continuation of studies.

Assessment: Formative and summative

Work-integrated Learning: Clinical Radiography I, II & III (Diagnostic) are assessed in practice (continuously). Practical competency and skills are assessed according to specific guidelines.

The radiation to which a radiographer is exposed may be detrimental to the health of an unborn child. Due to the important practical component of the learning programme, during which students are exposed to radiation, a female student is not permitted to complete the practical part of the learning programme during pregnancy. Any student who suspects she may be pregnant must notify the relevant Head of Department immediately. Such a student must discontinue the learning programme for the full duration of her pregnancy.

Upon successful completion of this qualification, the National Diploma will be awarded during an official graduation ceremony of CUT.

Admission requirements

A National Senior Certificate or equivalent qualification.

For candidates who matriculated in 2007 or before:

In addition to the general admission requirements, a minimum mark of 50% on standard grade or 40% on higher grade in all three of the following subjects is required: Biology/Physiology, Physical Sciences and Mathematics.

For candidates who completed the NSC in 2008 and thereafter:

In addition to the general admission requirements, a minimum mark of 50% in Life Sciences and Physical Sciences, as well as a minimum mark of 40% in Mathematics, is required.

A candidate must also successfully complete the selection process for admission.

Applicants in possession of the National Certificate Vocational (NCV) will be selected according to the selection requirements as approved by Senate.

Optional instructional offerings

All instructional offerings are compulsory.

PREREQUISITES**Admission to a higher level of study**

Considering that the ECP is subject to additional funding being made available by the Department of Higher Education and Training, a student will not be allowed to repeat the first year or part of the first year of the ECP.

A student must pass all instructional offerings of the first year of the ECP in order to continue with the subsequent year of study. A student may not change from the ECP to the regular programme.

Students who obtain between 50% and 59% in Anatomy (ANA00FP) will be required to register for the module Radiography Anatomy I (ANT10AT) in the second year of the ECP.

Refer to paragraph 1 under the heading “Admission to a higher level of study” (point 11 of this chapter).

Academic Literacy and Communication Studies requires the successful completion of two instructional offerings, A and B, in this specific order.

A distinction (75% or more) in instructional offering A ensures exemption from instructional offering B. A pass (without distinction) means that the student must pass instructional offering B in order to meet the prerequisite for the learning programme. Failing instructional offering A means that the student must re-register for instructional offering A in a subsequent semester.

No student will be allowed to graduate without completing the Academic Literacy and Communication Studies programme.

REMARKS

In the fourth year of study in the ECP, the student must complete 300 hours of work-integrated learning in an accredited salon. Only the hours scheduled are taken into account. In the event of a student deciding to work overtime or on a Saturday, Sunday or public holiday, this is considered a separate agreement between the student and the salon owner, and those hours are not taken into account in the accumulation of the required 300 hours. Work-integrated Learning: Soma Techniques Project II (SOP20AT) is a year instructional offering and is to be completed in full to allow the student to pass the instructional offering. Students are responsible for their own placement at an accredited salon/clinic, as well as for the necessary travel arrangements.

Work-integrated learning (WIL) will be scheduled for the months of December to February, for purposes of relevant and beneficial exposure at spas and resorts.

Before the National Diploma can be awarded, the student must have earned the recognised first-aid certificate, as well as diplomas from certain product houses, as required by the course.

Candidates only qualify for the CIDESCO assessment if:

1. They score a minimum of 60% in both the theoretical and practical components of the instructional offering Soma Techniques III during the first and second quarters; and
2. They pass all first-year, second-year and third-year instructional offerings of the National Diploma: Somatology (ECP).

A subminimum of 50% for each section of the practical (SMP) and theoretical (SMT) assessment is required for a student to pass the main instructional offering (SOM).

For example, if SMP20AT consists of theoretical and practical sections (Facials, Slimming, Aromatherapy & Reflexology, Manual Lymph Drainage (MLD), and Diathermy), the student must score at least 50% in each separate section in order to pass SMP20AT. Should students fail even one of the sections, they will be required to re-register for SMP20AT in its entirety, and would have to pass all sections successfully before they will be permitted to register for SMP30AT.

Students may be refused admission to the assessment if they have been absent from two or more practical classes in a term. This rule is applicable to each separate practical section.

It is compulsory for a student to dress in the prescribed uniform and shoes (refer to the general rules applicable to the Somatology programme).

Since the electrical apparatus to which students are exposed during the practical component of the learning programme may prove detrimental to the health of an unborn child, a female student is not permitted to complete the practical part of the learning programme during pregnancy. Any student who suspects she may be pregnant must notify the relevant Head of Department immediately.

Upon successful completion of this qualification, the National Diploma will be awarded during an official graduation ceremony of CUT.

Admission requirements

A National Senior Certificate or equivalent qualification.

For candidates who matriculated in 2007 or before:

In addition to the general admission requirements, a minimum mark of 50% on standard grade or 40% on higher grade in Physical Sciences **or** Biology **or** Physiology is required. Mathematics is recommended.

For candidates who completed the NSC in 2008 and thereafter:

In addition to the general admission requirements, a minimum mark of 50% in Life Sciences **or** Physical Sciences is required.

A candidate must successfully complete the selection process for admission to this learning programme.

Applicants in possession of the National Certificate Vocational (NCV) will be selected according to the selection requirements as approved by Senate.

A candidate might be recommended for, and must successfully complete, a selection process and selection test for admission to the learning programme, and meritorious exceptions may be considered for the ECP.

Provisionally selected students are subject to a second round of selections after submission of the NSC results. Should a prospective student have forfeited his/her selection, he/she might be considered for the limited number of ECP placements.

Optional instructional offerings

All instructional offerings are compulsory.

PREREQUISITES

Admission to a higher level of study

Considering that the ECP is subject to additional funding being made available by the Department of Higher Education and Training, a student will not be allowed to repeat the first year or part of the first year of the ECP.

A student must pass all first-year instructional offerings in order to continue with second-year instructional offerings of the ECP. A student may not change from the ECP to the regular programme.

Refer to paragraph 1 under the heading “Admission to a higher level of study” (point 11 of this chapter).

Academic Literacy and Communication Studies requires the successful completion of two instructional offerings, A and B, in this specific order.

A distinction (75% or more) in instructional offering A ensures exemption from instructional offering B. REMARKS

Upon commencing his/her studies, the student must register with the Professional Board for Medical Technology of the Health Professions Council of South Africa in terms of the rules and regulations of the Medical, Dental and Supplementary Health Services Professions Act, 1974 (Act 56 of 1974), and the subsequent amendments pertaining to medical technology, as approved.

Work-integrated learning takes place only at approved, accredited laboratories identified by CUT and the Professional Board for Medical Technology. A student with outstanding exit-level subjects may not be eligible for work-integrated learning placement.

Upon successful completion of this qualification, the National Diploma will be awarded during an official graduation ceremony of CUT.

Admission requirements

A National Senior Certificate or equivalent qualification.

For candidates who matriculated in 2007 or before:

In addition to the general admission requirements, a minimum mark of 50% on standard grade or 40% on higher grade in all three of the following subjects is required: Biology/Physiology, Physical Sciences and Mathematics.

For candidates who completed the NSC in 2008 and thereafter:

In addition to the general admission requirements, a minimum mark of 50% in both Life Sciences and Physical Sciences, as well as a minimum mark of 50% in both Mathematics and English, is required.

A candidate must successfully complete the selection process for admission to this learning programme. A candidate is required to submit proof of job shadowing at an accredited diagnostic laboratory.

Applicants in possession of the National Certificate Vocational (NCV) will be selected according to the selection requirements as approved by Senate.

PREREQUISITES

Refer to paragraph 1 under the heading “Admission to a higher level of study” (point 11 of this chapter).

Academic Literacy and Communication Studies requires the successful completion of two instructional offerings, A and B, in this specific order.

REMARKS

Upon commencing his/her studies, the student must register with the Professional Board for Radiography and Clinical Technology of the Health Professions Council of South Africa (HPCSA) in terms of the rules and regulations of the Medical, Dental and Supplementary Health Services Professions Act, 1974 (Act 56 of 1974), and the subsequent amendments pertaining to Clinical Technology, as approved. Instructional offerings at third-year level are offered together with Work-integrated Learning in an accredited training unit and in a specific category, as approved by the Professional Board for Radiography and Clinical Technology, in collaboration with CUT and the employer. The student must comply with 1 800 hours for the year, set as the minimum requirement by the HPCSA.

Upon successful completion of this qualification, the National Diploma will be awarded during an official graduation ceremony of CUT.

Admission requirements

A National Senior Certificate or equivalent qualification.

For candidates who matriculated in 2007 or before:

In addition to the general admission requirements, a minimum mark of 50% on standard grade or 40% on higher grade in all three of the following subjects is required: Biology/Physiology, Physical Sciences and Mathematics.

For candidates who completed the NSC in 2008 and thereafter:

In addition to the general admission requirements, a minimum mark of 50% in Life Sciences **and** Physical Sciences, **as well as** a minimum mark of 40% in Mathematics and English, is required.

A candidate must successfully complete the selection process for admission to this learning programme.

Applicants in possession of the National Certificate Vocational (NCV) will be selected according to the selection requirements as approved by Senate.

PREREQUISITES

Refer to paragraph 1 under the heading “Admission to a higher level of study” (point 11 of this chapter).

Academic Literacy and Communication Studies requires the successful completion of two instructional offerings, A and B, in this specific order.

A distinction (75% or more) in instructional offering A ensures exemption from instructional offering B. A pass (without distinction) means that the student must pass instructional offering B in order to meet the prerequisite for the learning programme. Failing instructional offering A means that the student must re-register for instructional offering A in a subsequent semester.

No student will be allowed to graduate without completing the Academic Literacy and Communication Studies programme.

***Work-integrated Learning credits are reflected in the module instructional offerings.**

REMARKS

Upon commencing his/her studies, the student must register with the Professional Board for Emergency Care of the Health Professions Council of South Africa in terms of the rules and regulations of the Medical, Dental and Supplementary Health Services Professions Act, 1974 (Act 56 of 1974), and the subsequent amendments pertaining to emergency medical care, as approved.

Work-based learning, a component of Work-integrated Learning, is conducted at approved units identified by CUT and the Professional Board for Emergency Care. The student will be expected to undertake his/her work-based learning according to a formal roster system managed by the learning programme, which includes working over weekends and during academic recesses. The student is expected to comply with the guidelines and code of conduct specified in the programme's standard operating procedures and the subsequent amendments pertaining to programme requirements, as approved.

Upon successful completion of this qualification, the National Diploma will be awarded during an official graduation ceremony of CUT.

Admission requirements

No new first-year intake for the National Diploma: Emergency Medical Care as from 2015.

Optional instructional offerings

All instructional offerings are compulsory.

PREREQUISITES

Refer to paragraph 1 under the heading "Admission to a higher level of study" (point 11 of this chapter).

In all three years of the programme, a student must meet the minimum physical fitness requirements as specified by the programme before undertaking the practical phase of a rescue module.

A student may not register for minor instructional offerings or modules on a subsequent level of study in cases where timetabling conflicts occur. The student must first complete ALL major instructional offerings with his/her module instructional offerings at a particular level of study before progressing to the next level of study. The learning programme is structured in such a way that instructional offerings and modules from previous levels are assumed to be in place, and instructional offerings and modules on subsequent levels are expected to build on previously acquired knowledge, skills and attributes.

Academic Literacy and Communication Studies requires the successful completion of two instructional offerings, A and B, in this specific order.

A distinction (75% or more) in instructional offering A ensures exemption from instructional offering B. A pass (without distinction) means that the student must pass instructional offering B in order to meet the prerequisite for the learning programme. Failing instructional offering A means that the student must re-register for instructional offering A in a subsequent semester.

No student will be allowed to graduate without completing the Academic Literacy and Communication Studies programme.

REMARKS

Upon commencing his/her studies, the student must register with the Professional Board for Environmental Health Practitioners of the Health Professions Council of South Africa, as stipulated in Government Gazette R1869, dated 79.08.24.

At least 25 working days during the first and second years of study and at least 40 working days in the third year of study are to be completed under the supervision of a registered environmental health practitioner.

Instructional offerings at all levels are assessed internally by CUT. Third-level instructional offerings, however, are moderated externally. Practical assessments in the instructional offering Food & Meat Hygiene III are conducted internally by CUT.

In cases where a practical assessment is administered, the final assessment mark is awarded for both the theory and practical components.

Directly upon receiving the National Diploma, all students are expected to perform 12 months of compulsory community service.

Upon successful completion of this qualification, the National Diploma will be awarded during an official graduation ceremony of CUT.

Since the physical, chemical and biological stressors to which students are exposed during the practical component of the programme may be detrimental to the health of an unborn child, a female student is not permitted to complete the practical section of the programme during pregnancy. Any student who suspects she may be pregnant must notify the relevant Head of Department immediately. Such a student must discontinue Food & Meat Hygiene III (VVH30AT) (if registered). It is also recommended that the student discontinues the following instructional offerings (if registered) for the full duration of her pregnancy:

- MBO10AT Microbiology I
- BGV 20AT Occupational Health & Safety II
- OAW20AT Environmental Pollution: Waste & Water II
- BGV30AT Occupational Health & Safety III

Admission requirements

A National Senior Certificate or equivalent qualification.

For candidates who matriculated in 2007 or before:

In addition to the general admission requirements, a minimum mark of 50% on standard grade in any **two** of the following subjects is required: Biology, Physical Sciences and Mathematics. Geography and/or Physiology are recommended.

For candidates who completed the NSC in 2008 and thereafter:

In addition to the general admission requirements, a minimum mark of 50% in both Life Sciences **and** Physical Sciences, **as well as** a minimum mark of 40% in Mathematics.

A candidate might be recommended for, and must then successfully complete, a selection process for admission to the learning programme, and meritorious exceptions may be considered for the ECP.

Applicants in possession of the National Certificate Vocational (NCV) will be selected according to the selection requirements as approved by Senate.

Optional instructional offerings

All instructional offerings are compulsory.

PREREQUISITES

Refer to paragraph 1 under the heading “Admission to a higher level of study” (point 11 of this chapter).

Academic Literacy and Communication Studies requires the successful completion of two instructional offerings, A and B, in this specific order.

A distinction (75% or more) in instructional offering A ensures exemption from instructional offering B. REMARKS

Upon commencing his/her studies, the student must register with the Professional Board for Radiography and Clinical Technology of the Health Professions Council of South Africa in terms of the rules and regulations of the Medical, Dental and Supplementary Health Services Professions Act, 1974 (Act 56 of 1974), and the subsequent amendments pertaining to radiography, as approved.

The option to study Therapy can only be executed upon successful completion of the National Diploma: Radiography (Diagnostic). The therapy programme will only be offered for a minimum of five students per year of study.

Work-based learning, a component of Work-integrated Learning, is conducted simultaneously with formal training in a training unit, as approved by the Professional Board for Radiography and Clinical Technology. The student is placed as a student radiographer at an accredited hospital and undergoes work-based learning for a specific number of hours, as prescribed by the Professional Board for Radiography and Clinical Technology. Work-integrated learning can make it practically impossible for a student to take instructional offerings on two academic levels in a single academic year. A student who fails is assessed on an individual basis in respect of continuation of studies.

To qualify for a national diploma in an additional category (e.g. Therapy), a student who has already obtained the National Diploma in Radiography must pass the instructional offerings with 50% additional credits in the additional category.

Assessment: Formative and summative

Work-integrated Learning: Clinical Radiography I, II & III (Diagnostic or Therapy) are assessed in practice (continuously). Practical competency and skills are assessed according to specific guidelines.

The radiation to which a radiographer is exposed may be detrimental to the health of an unborn child. Since students are exposed to radiation during the practical component of the learning programme, a female student is not permitted to complete the practical part of the learning programme during pregnancy. Any student who suspects she may be pregnant must notify the relevant Head of Department immediately. Such a student must discontinue the learning programme for the full duration of her pregnancy.

Upon successful completion of this qualification, the National Diploma will be awarded during an official graduation ceremony of CUT.

Admission requirements

A National Senior Certificate or equivalent qualification.

For candidates who matriculated in 2007 or before:

In addition to the general admission requirements, a minimum mark of 50% on standard grade or 40% on higher grade in all three of the following subjects is required: Biology/Physiology, Physical Sciences and Mathematics.

For candidates who completed the NSC in 2008 and thereafter:

In addition to the general admission requirements, a minimum mark of 50% in Life Sciences and Physical Sciences, as well as a minimum mark of 40% in Mathematics, is required.

A candidate must successfully complete the selection process for admission to this learning programme.

Applicants in possession of the National Certificate Vocational (NCV) will be selected according to the selection requirements as approved by Senate.

REMARKS

In the third year of study, the student must complete 300 hours of work-integrated learning in one or more accredited salons. Only the hours scheduled are taken into account. In the event of a student deciding to work overtime or on a Saturday, Sunday or public holiday, this is considered a separate agreement between the student and the salon owner, and those hours are not taken into account in the accumulation of the required 300 hours. Work-integrated Learning: Soma Techniques Project II (SOP20AT) is a year instructional offering and is to be completed in full to allow the student to pass the instructional offering. A student is responsible for her own placement at an accredited salon/clinic, as well as the necessary travel arrangements.

Work-integrated learning (WIL) will be scheduled for the months of December to February, for applicable and beneficial exposure at spas and resorts.

Before the National Diploma can be awarded, the student must have earned the recognised first-aid certificate, as well as diplomas from certain product houses, as required by the course.

Candidates only qualify for the CIDESCO assessment if:

1. They achieve a minimum of 60% in both the theoretical and practical components of the instructional offering Soma Techniques III during the first and second quarters; and
2. They pass all first-year and second-year instructional offerings of the National Diploma: Somatology.

A subminimum of 50% for each section of the practical (SMP) and theoretical (SMT) assessment, as well as a minimum of 50% for the paper as a whole, is required for a student to pass the main instructional offering (SOM).

For example, if SMP20AT consists of theoretical and practical sections (Facials, Slimming, Aromatherapy & Reflexology, Manual Lymph Drainage (MLD), and Diathermy), the student must obtain at least 50% in each separate section in order to pass SMP20AT. Should students fail even one of the sections, they will be required to re-register for SMP20AT in its entirety and pass all sections successfully before they will be permitted to register for SMP30AT.

Students may be refused admission to the assessment if they have been absent from two or more practical periods in a term. This rule is applicable to each separate practical section.

It is compulsory for a student to dress in the prescribed uniform and shoes (refer to the general rules applicable to the Somatology programme).

Since the electrical apparatus to which students are exposed during the practical component of the learning programme may prove detrimental to the health of an unborn child, a female student is not permitted to

complete the practical part of the learning programme during pregnancy. Any student who suspects she may be pregnant must notify the relevant Head of Department immediately.

Upon successful completion of this qualification, the National Diploma will be awarded during an official graduation ceremony of CUT.

Admission requirements

A National Senior Certificate or equivalent qualification.

For candidates who matriculated in 2007 or before:

In addition to the general admission requirements, a minimum mark of 50% on standard grade or 40% on higher grade in Physical Sciences **or** Biology **or** Physiology is required. Mathematics is recommended.

For candidates who completed the NSC in 2008 and thereafter:

In addition to the general admission requirements, a minimum mark of 50% in Life Sciences **or** Physical Sciences is required.

A candidate must successfully complete the selection process for admission to this learning programme.

Applicants in possession of the National Certificate Vocational (NCV) will be selected according to the selection requirements as approved by Senate.

Optional instructional offerings

All instructional offerings are compulsory.

PREREQUISITES

Refer to paragraph 1 under the heading “Admission to a higher level of study” (point 11 of this chapter).

Academic Literacy and Communication Studies requires the successful completion of two instructional offerings, A and B, in this specific order.

A distinction (75% or more) in instructional offering A ensures exemption from instructional offering B. A pass (without distinction) means that the student must pass instructional offering B in order to meet the prerequisite for the learning programme. Failing instructional offering A means that the student must re-register for instructional offering A in a subsequent semester.

No student will be allowed to graduate without completing the Academic Literacy and Communication Studies programme.

ADC5022	Advanced Digital Literacy (module instructional offering)	6
Total:		141

This programme is presented on a full-time basis over a period of one year or on a part-time basis over a minimum period of two years.

REMARKS

Upon commencing his/her studies, the student must register with the Professional Board for Dental Therapy and Oral Hygiene of the Health Professions Council of South Africa in terms of the rules and regulations of the Medical, Dental and Supplementary Health Services Professions Act, 1974 (Act 56 of 1974), and the subsequent amendments pertaining to dental assisting, as approved. A minimum of 480 hours of work-integrated learning at dental clinics, hospitals and/or private dental practices is required.

Assessment: Formative and summative

Practical competency and skills are assessed according to specific guidelines, which include Dental Assisting: Practical and Computer Literacy. It is compulsory for students to adhere to the stipulated ethical rules and dress code during practical and work-integrated learning sessions.

The radiation to which a dental assistant is exposed may be detrimental to the health of an unborn child. Due to the important practical component of the course, during which students are exposed to radiation, a female student may not complete the practical part of her course during pregnancy. Any student who suspects she may be pregnant must notify the relevant Head of Department immediately.

Upon successful completion of this qualification, the Higher Certificate will be awarded during the official graduation ceremony of the CUT.

Admission requirements

A National Senior Certificate or equivalent qualification.

For candidates who matriculated in 2007 or before:

In addition to the general admission requirements, a minimum mark of 50% on standard grade or 40% on higher grade in Biology/Physiology is required.

For candidates who completed the NSC in 2008 and thereafter:

In addition to the general admission requirements, a minimum mark of 50% in Life Sciences is required.

Minimum requirements

- The minimum requirements for enrolment are an FETC with six 20-credit-bearing subjects with a rating of four, and a minimum rating of one for Life Orientation (thus a total credit value of at least 25).
- An aptitude test if the candidate has passed four FETC credit-bearing designated subjects with a rating of four, plus two 20-credit-bearing designated subjects with a rating of three, and a minimum rating of one for Life Orientation (thus a total credit value of at least 23).
- English as a language subject (home or additional), with a minimum rating of three.

In addition to the above:

- Life Sciences (rating 4).

Note: If more applications are received than can be accommodated by the learning programme, selection will be based on academic merit.

(Note: The minimum value of 25 is calculated as follows: 6 x 4 for six 20-credit-bearing subjects at level four, plus one for Life Orientation at level three.)

A candidate who fails one or more instructional offerings must re-apply for admission.

Applicants in possession of the National Certificate Vocational (NCV) will be selected according to the selection requirements as approved by Senate.

No student will be allowed to graduate without completing the Academic Literacy and Communication Studies programme.

It is compulsory for candidates who wish to enrol for the part-time programme to be employed by a dental practitioner as a dental assistant.

22. **ADVANCED DIPLOMA**

22.1 **ADVANCED DIPLOMA IN AGRICULTURAL EXTENSION TLADAE**

This learning programme will be offered in Bloemfontein.

PJT40AT	Project	36
Total:		120

The fourth academic year is presented on a full-time basis over a period of one year or on a part-time basis over a minimum period of two years.

REMARKS

The student must complete two fourth-level instructional offerings, as indicated. A compulsory research project must preferably be completed during the year in which ONE of the fourth-level instructional offerings is selected. If this is not feasible, the student must complete the research project within three years after completing the fourth-level subjects in order to qualify for the degree. The project supervisor or co-supervisor must be an employee of CUT.

The student must ensure that he/she has met the requirements with regard to ethical clearance (where applicable), since failure to do so may prevent the assessment of the research protocol and thesis.

CUT reserves the right to present certain instructional offering combinations at fourth-year level. Upon successful completion of this qualification, a Baccalaureus Technologiae degree will be awarded during an official graduation ceremony of CUT.

Admission requirements

A National Diploma: Biomedical Technology or equivalent qualification with the appropriate instructional offerings.

PREREQUISITES

Refer to paragraph 1 under the heading “Admission to a higher level of study” (point 11 of this chapter).

Instructional offerings

Compulsory research project or simultaneously with

Total:		120

The fourth academic year is presented on a full-time basis over a period of one year or on a part-time basis over a minimum period of two years.

REMARKS

Upon commencing his/her studies, the student must register with the Professional Board for Radiography and Clinical Technology of the Health Professions Council of South Africa (HPCSA) in terms of the rules and regulations of the Medical, Dental and Supplementary Health Services Professions Act, 1974 (Act 56 of 1974) and the subsequent amendments pertaining to clinical technology, as approved.

Instructional offerings at fourth-year level are taken together with Work-integrated Learning in an accredited training unit and in a specific category, as approved by the Professional Board for Radiography and Clinical Technology, in collaboration with CUT and the employer. The student must comply with 1 800 hours for the year, set as the minimum requirement by the HPCSA.

A compulsory research project in a fourth-level instructional offering must be completed. A written research proposal must reach the relevant Head of Department, as stipulated in the Baccalaureus Technologiae instruction manual. The student must ensure that he/she has met the requirements with regard to ethical clearance, since failure to do so may prevent the assessment of the research protocol and thesis. The internal supervisor of the project must be an employee of CUT. CUT reserves the right to present certain instructional offering combinations at fourth-year level.

Upon successful completion of this qualification, a Baccalaureus Technologiae degree will be awarded during an official graduation ceremony of CUT.

Admission requirements

A National Diploma: Clinical Technology or equivalent qualification with the appropriate instructional offerings.

PREREQUISITES

Refer to paragraph 1 under the heading "Admission to a higher level of study" (point 11 of this chapter).

AFV40AT	Waste Management IV	30
VHG40AT	*Meat Hygiene IV	30
LUG40AT	*Air Pollution IV	30
Total:		120

REMARKS

Upon commencing his/her studies, the student must register with the Professional Board for Environmental Health Practitioners of the Health Professions Council of South Africa, as stipulated in Government Gazette R1869, dated 79.08.24.

Instructional offerings at all levels are assessed internally by CUT. Fourth-level instructional offerings, however, are moderated externally.

At fourth-year level, instructional offerings from the list of options may only be taken if all learning units of the instructional offerings have been passed at third-year level. Instructional offerings marked with an asterisk (*) under "Optional instructional offerings" are not offered at CUT. Instructional offerings marked with a double asterisk (**) will be considered on the basis of demand.

Upon successful completion of this qualification, a Baccalaureus Technologiae degree will be awarded during an official graduation ceremony of CUT.

Since the physical, chemical and biological stressors to which students may be exposed during the practical component of the research project could prove detrimental to the health of an unborn child, a pregnant student might not be permitted to complete the practical section of the research project, depending on the type of project. Any student who suspects that she may be pregnant must notify the relevant Head of Department immediately. It is recommended that the student, after consulting with the lecturer, discontinues any research activity that may pose a risk to her pregnancy.

Admission requirements

A National Diploma: Environmental Health or equivalent qualification, with a minimum average mark of 60% for the qualification, or at least 60% for the prerequisite main module.

PREREQUISITES

Refer to paragraph 1 under the heading “Admission to a higher level of study” (point 11 of this chapter).

All prospective students will be subject to a selection process.

Students who are employed on a full-time basis or who are engaged in community service will not be allowed to register on a full-time basis.

**23.5 BACCALAUREUS TECHNOLOGIAE: RADIOGRAPHY (DIAGNOSTIC) TABTDC

Total:			120

The fourth academic year is presented on a full-time basis over a period of one year or on a part-time basis over a minimum period of two years.

REMARKS

Upon commencing his/her studies, the student must register with the Professional Board for Radiography and Clinical Technology of the Health Professions Council of South Africa in terms of the rules and regulations of the Medical, Dental and Supplementary Health Services Professions Act, 1974 (Act 56 of 1974), and the subsequent amendments pertaining to radiography, as approved.

Computer literacy and skills, as well as internet access, are recommended due to the structure and presentation of the learning programme.

Upon successful completion of this qualification, a Baccalaureus Technologiae degree will be awarded during an official graduation ceremony of CUT.

Admission requirements

A National Diploma: Radiography or equivalent qualification with the appropriate instructional offerings.

An applicable National Diploma in Radiography or equivalent qualification, subject to the recognition of prior learning in accordance with the policies and procedures of CUT.

A candidate must successfully complete the selection process for the Baccalaureus Technologiae programme.

A compulsory research project in a fourth-level instructional offering must be completed. A written research proposal must reach the relevant Head of Department before the end of March of the year in which the fourth-level instructional offering is taken. The project supervisor or co-supervisor must be an employee of CUT. CUT reserves the right to present certain instructional offering combinations at fourth-year level.

Optional instructional offerings

All instructional offerings are compulsory.

PREREQUISITES

Refer to paragraph 1 under the heading “Admission to a higher level of study” (point 11 of this chapter).

23.6 BACCALAUREUS TECHNOLOGIAE: SOMATOLOGY THBTLO

This learning programme will be offered in Bloemfontein.

The fourth academic year is presented on a full-time basis over a period of one year or on a part-time basis over a minimum period of two years.

REMARKS

A student must pass all the instructional offerings up to third-year level before being permitted to register for the fourth year.

It is compulsory for a student to dress in the prescribed uniform and shoes.

A compulsory research project in a fourth-level instructional offering must be completed. A written research proposal must reach the relevant Head of Department, as stipulated in the Baccalaureus Technologiae instruction manual. The student must ensure that she has met the requirements with regard to ethical clearance, since failure to do so may prevent the assessment of the research protocol and thesis.

Upon successful completion of this qualification, a Baccalaureus Technologiae degree will be awarded during an official graduation ceremony of CUT.

Admission requirements

Two years of industry experience, or a minimum of 27 points on CUT scoring scale for the National Senior Certificate or equivalent qualification.

A National Diploma: Somatology or equivalent qualification with the appropriate instructional offerings.

A candidate must successfully complete the selection process for the Baccalaureus Technologiae programme.

Total:			552

REMARKS

Upon commencing his/her studies, the student must register with the Professional Board for Radiography and Clinical Technology of the Health Professions Council of South Africa in terms of the rules and regulations of the Medical, Dental and Supplementary Health Services Professions Act, 1974 (Act 56 of 1974), and the subsequent amendments pertaining to radiography, as approved.

Workplace learning, a component of Work-integrated Learning, is conducted simultaneously with formal training in a training unit, as approved by the Professional Board for Radiography and Clinical Technology. The student is placed as a student radiographer at an accredited hospital and undergoes workplace learning for a specific number of hours, as prescribed by the Professional Board for Radiography and Clinical Technology.

The required work-integrated learning in the programme makes it practically impossible for a student to take instructional offerings on two academic levels in a single academic year. A student who fails will thus be assessed on an individual basis in respect of continuation of studies.

A student cannot progress to the next level if all prerequisites for the work-integrated learning component of the programmes are not successfully attained (e.g. continuous assessment rubrics, portfolios).

Assessment: Formative and summative

Work-integrated Learning: Radiographic Procedures I, II, III & IV (Diagnostic) are assessed at CUT and in clinical practices on a continuous basis. Practical competency and skills are assessed according to specific guidelines.

The radiation to which a radiographer is exposed may be detrimental to the health of an unborn child. Since students are exposed to radiation during the practical component of the learning programme, a

female student is not permitted to complete the practical part of the learning programme during pregnancy. Any student who suspects she may be pregnant must notify the relevant Head of Department immediately. **Such a student must discontinue the learning programme for the full duration of her pregnancy.**

Upon successful completion of this qualification, a Bachelor of Radiography in Diagnostics degree will be awarded during an official graduation ceremony of CUT.

Admission requirements

A National Senior Certificate or equivalent qualification.

A minimum of 30 points on the M scale.

For candidates who matriculated in 2007 or before:

In addition to the general admission requirements, a minimum mark of 60% on standard grade or 50% on higher grade in all three of the following subjects is required: Biology/Physiology, Physical Sciences and Mathematics.

For candidates who completed the NSC in 2008 and thereafter:

The candidate must be in possession of the NCS with endorsement for a bachelor's degree. In addition to the general admission requirements, a minimum mark of level 3 pass (40 – 49%) in Life Orientation and level 4 pass (50 – 59%) in Life Sciences, Physical Sciences and Mathematics is required. A minimum admission score (APS) of 30 points on the CUT scale of notation is required.

A candidate must successfully complete the selection process for admission to this learning programme. Provisionally selected students are subject to a second round of selections after submission of the NSC results. Should a prospective student have forfeited his/her selection, he/she might be considered for the limited number of ECP placements.

All instructional offerings are compulsory.

PREREQUISITES

Considering that the ECP is subject to additional funding being made available by the Department of Higher Education and Training, a student will not be allowed to repeat the first year or part of the first year of the ECP. **A student must pass all first-year instructional offerings in order to continue with second-year instructional offerings of the ECP. A student may not change from the ECP to the regular programme.**

Refer to paragraph 1 under the heading “Admission to a higher level of study” (point 11 of this chapter).

In addition to the radiography-related offerings in the programme, the following offerings, as prescribed by the institution, are also compulsory: Personal Information Management, Academic Literacy and Communication Studies, Basic and Advanced Digital Literacy, and Success Skills. **No student will be allowed to graduate without successfully completing the above instructional offerings.**

REMARKS

Upon commencing his/her studies, the student must register with the Professional Board for Radiography and Clinical Technology of the Health Professions Council of South Africa in terms of the rules and regulations of the Medical, Dental and Supplementary Health Services Professions Act, 1974 (Act 56 of 1974), and the subsequent amendments pertaining to radiography, as approved.

Workplace learning, a component of Work-integrated Learning, is conducted simultaneously with formal training in a training unit, as approved by the Professional Board for Radiography and Clinical Technology. The student is placed as a student radiographer at an accredited hospital and undergoes workplace learning for a specific number of hours, as prescribed by the Professional Board for Radiography and Clinical Technology. **The required work-integrated learning in the programme makes it practically impossible for a student to take instructional offerings on two academic levels in a single academic year. A student who fails will thus be assessed on an individual basis in respect of continuation of studies.**

A student cannot progress to the next level if all prerequisites for the work-integrated learning component of the programmes are not successfully attained (e.g. continuous assessment rubrics, portfolios).

Assessment: Formative and summative

Work-integrated Learning: Radiographic Procedures I, II, III & IV (Diagnostic) are assessed at CUT and in clinical practices on a continuous basis. Practical competency and skills are assessed according to specific guidelines.

The radiation to which a radiographer is exposed may be detrimental to the health of an unborn child. Since students are exposed to radiation during the practical component of the learning programme, **a female student is not permitted to complete the practical part of the learning programme during pregnancy.** Any student who suspects she may be pregnant must notify the relevant Head of Department immediately. **Such a student must discontinue the learning programme for the full duration of her pregnancy.**

Upon successful completion of this qualification, a Bachelor of Radiography in Diagnostics degree will be awarded during an official graduation ceremony of CUT.

Admission requirements

A National Senior Certificate or equivalent qualification.

A minimum of 30 points on the M scale.

For candidates who matriculated in 2007 or before:

In addition to the general admission requirements, a minimum mark of 60% on standard grade or 50% on higher grade in all three of the following subjects is required: Biology/Physiology, Physical Sciences and Mathematics.

For candidates who completed the NSC in 2008 and thereafter:

The candidate must be in possession of the NCS with endorsement for a bachelor's degree. In addition to the general admission requirements, a minimum mark of level 3 pass (40 – 49%) in Life Orientation and level 4 pass (50 – 59%) in Life Sciences, Physical Sciences and Mathematics is required. A minimum admission score (APS) of 30 points on the CUT scale of notation is required.

A candidate must successfully complete the selection process for admission to this learning programme.

Applicants in possession of the National Certificate Vocational (NCV) will be selected according to the selection requirements as approved by Senate.

All instructional offerings are compulsory.

PREREQUISITES

Refer to paragraph 1 under the heading “Admission to a higher level of study” (point 11 of this chapter).

In addition to the radiography-related offerings in the programme, the following offerings, as prescribed by the institution, are also compulsory: Personal Information Management, Academic Literacy and Communication Studies, Basic and Advanced Digital Literacy, and Success Skills. **No student will be allowed to graduate without successfully completing the above instructional offerings.**

Instructional offerings

Anatomy & Physiology II
Imaging Technology III

26. MAGISTER TECHNOLOGIAE DEGREES

These learning programmes will be offered in Bloemfontein.

SAQA CREDITS: 120

NQF LEVEL: 9

PROGRAMME CODE	MAGISTER TECHNOLOGIAE	MAIN CODE	INSTRUCTIONAL OFFERINGS
ILMTLM	Agriculture NO INTAKE IN 2016	THE50AI	Dissertation
TAMTTY	Biomedical Technology NO INTAKE IN 2016	THE50AT	Dissertation
TAMTNG	Clinical Technology NO INTAKE IN 2016	DEL50AT	Dissertation
THMTGH	Environmental Health NO INTAKE IN 2016	VER50AT	Dissertation
TAMTDO	Radiography (Diagnostic) NO INTAKE IN 2016	THS50AT	Dissertation (Diagnostic)
TAMTDO	Radiography (Therapy) NO INTAKE IN 2016	SIS50AT	Dissertation (Therapy)
TAMTDO	Radiography (Nuclear Medicine) NO INTAKE IN 2016	HAN50AT	Dissertation (Nuclear Medicine)
THMTSO	Somatology NO INTAKE IN 2016	TSS50AT	Dissertation

REMARKS

The Magister Technologiae degree is only awarded upon completion of an approved research project and upon submission of a dissertation.

Prospective students may be subject to a selection process.

Upon successful completion of this qualification, a Magister Technologiae degree will be awarded during an official graduation ceremony of CUT.

Admission requirements

A Baccalaureus Technologiae degree or equivalent qualification.

27. MASTER'S DEGREES

These learning programmes will be offered in Bloemfontein.

SAQA CREDITS: 120

NQF LEVEL: 9

PROGRAMME CODE	MASTER'S DEGREE	MAIN CODE	INSTRUCTIONAL OFFERINGS
M_AGRI M_HBIO	Master of Agriculture Master of Health Sciences in Biomedical Technology	THE50AI THE50AT	Dissertation Dissertation
M_HSCT	Master of Health Sciences in Clinical Technology	DEL50AT	Dissertation
M_HSEN	Master of Health Sciences in Environmental Health	VER50AT	Dissertation
M_RADI	Master of Radiography	MRAD900	Dissertation
M_HSOM	Master of Health Sciences in Somatology	TSS50AT	Dissertation

REMARKS

A master's degree is only awarded upon completion of an approved research project and upon submission of a dissertation.

Prospective students may be subject to a selection process.

Upon successful completion of this qualification, a master's degree will be awarded during an official graduation ceremony of CUT.

Admission requirements

A Baccalaureus Technologiae degree or equivalent qualification.

28. DOCTOR TECHNOLOGIAE DEGREES

These learning programmes will be offered in Bloemfontein.

SAQA CREDITS: 240

NQF LEVEL: 10
