

CENTRAL UNIVERSITY OF TECHNOLOGY, FREE STATE Sentrale Universiteit vir Tegnologie, vrystaat Yunivesithi e Bohareng ya Thekenoloji, foreistata

School for Information and Communication Technology

INSTRUCTIONAL OFFERING	INFORMATION TECHNOLOGY MANAGEMENT IV
SUBJECT CODE (sapse code)	ITM41AB
EXAMINATION	CONTINUOUS EVALUATION
CREDITS	12
NQF LEVEL	7
TYPE OF LEARNING	VOCATIONAL TRAINING

## **Extended Syllabus:**

UNIT	SPECIFIC OUTCOME	ASSESSMENT CRITERIA	CREDITS	NOTIONAL HOURS	WEEKS
1	Understand what a project is.	<ul> <li>We will know that the learner is able to understand what a project is if he/she independently and in the context of an active and learner-centered learning environment in higher education:</li> <li>a) Wrote down the definition and characteristics of a project.</li> <li>b) Identified the four stages in the Project Life Cycle</li> <li>c) Explained what is meant by the technical and sociocultural dimensions of the project management process.</li> </ul>	1.1	11	1
2	Understand how a project is integrated with the strategic plan of an organisation.	<ul> <li>We will know that the learner is able to understand how a project is integrated with the strategic plan if he/she independently and in the context of an active and learner-centered learning environment in higher education:</li> <li>a) Described the major components of the strategic management process.</li> <li>b) Explained the role projects play in the strategic management process.</li> <li>c) Identified the vision and mission of a company</li> <li>d) Explained how a project fits into the vision and mission of a company</li> </ul>	1.1	11	1
3	Define a suitable IT	We will know that the learner is able	1.1	11	1

	project independently	to define a suitable IT problem by			
	and in the context of an	consulting any organization if he/she			
	active and learner-	independently and in the context			
	centered learning	of an active and learner-centered			
	environment in higher	learning environment in higher			
	education, by consulting	education:			
	any organization.	a) Defined the project scope of the			
		project by clearly, unambiguously and			
		completely specifying the Project			
		Objectives, Deliverables, Milestones,			
		Technical Requirements, and Limits			
		and exclusions of the project.			
		b) Established project priorities clearly,			
		unambiguously and completely.			
		c) Created a Work Breakdown Structure			
		including at least three levels.			
4	Estimate the project	We will know that the learner is able to	1.1	11	1
	times and costs for	estimate the project times and			
	each activity	costs for each activity if he/she			
	independently and in the	independently and in the context of an			
	context of an active and	active and learner-centered learning			
	learner-centered	environment in higher education:			
	learning environment	a) Conducted research on the various			
	in higher education.	methods of cost estimation			
		b) Applied an applicable cost estimation			
		method in order to estimate the costs			
		of work packages unambiguously and			
		completely.			
5	Schedule resources for	We will know that the learner is able to	1.1	11	1
5	each activity of a	schedule resources for each activity	1.1		1
	project in the context of	of the project if he/she independently			
	an active and learner-	and in the context of an active and			
	centered learning				
	ũ	learner-centered learning environment			
	environment in higher education.	in higher education:			
	nigher education.	Scheduled the resources for each			
		activity of the project clearly,			
		unambiguously and completely.			
6	Develop an Activity-on-	We will know that the learner is able to	1.1	11	1
	Node network for the	develop an Activity-on-Node		' '	'
	project independently	network for the project if he/she			
	and in the context of	independently and in the context of an			
	an active and learner-	active and learner-centered learning			
	centered learning	environment in higher education:			
	environment in higher	<ul> <li>Developed an Activity-on-Node</li> </ul>			
	education.	<ul> <li>Developed an Activity-on-Node network and indicated clearly all the</li> </ul>			
		following for all activities: Early Start,			
		Late Start, Slack, duration,			
		Early Finish, Late Finish, Relationships Critical Path.			
1					

7	Create a Microsoft Project network file that represents the project in the context of an active and learner-centered learning environment in higher education.	<ul> <li>We will know that the learner is able to create a Microsoft Project network file that represents the project if he/she independently and in the context of an active and learner-centered learning environment in higher education:</li> <li>Created a Microsoft Project file that represents the project that indicates the sequence, duration, cost, resources, and critical path for all activities clearly, unambiguously and completely.</li> </ul>	1.1	11	1
8	Evaluate and measure actual performance of a project against a budgeted plan	<ul> <li>We will know that the learner is able to evaluate and measure actual performance of a project against a budgeted plan if he/she independently and in the context of an active and learner-centered learning environment in higher education:</li> <li>a) Explained how organizations track project performance</li> <li>b) Explained, calculated and interpreted the following acronyms that forms part of a Cost/Schedule system: EV, PV, AC, CV, SV, BAC, EAC, ETC, VAC.</li> <li>c) Explained, calculated and interpreted the following /indexes used to monitor progress: CPI, PCIB, PCIC.</li> </ul>	1.1	11	2
9	Understand what is necessary to be an effective leader	<ul> <li>We will know that the learner is able to understand how to be an effective leader if the learner is able:</li> <li>a) To understand the importance of the network of relationships that need to be managed to be a successful project manager</li> <li>b) To identify the "currencies" a project manager can use to influence others</li> </ul>	1.1	11	1

	1	a) To understand MDM/A			1
		c) To understand MBWA			
		d) To highlight the importance of			
		maintaining positive relationships			
		with project sponsors			
		e) To understand and discuss the			
		importance of building trust for			
		project success			
		f) To identify some of the qualities of			
		an effective project manager			
10	Understand how to	We will know that the learner is able to	1.1	11	1
10	manage project teams	understand how to manage project	1.1	11	
	manago project teame	teams if the learner is able:			
		a) To identify key characteristics of a			
		high-performance project team			
		b) To appreciate the impact situational			
		factors have on project team			
		development			
		c) To develop strategies for			
		developing a high-performance			
		project team			
		d) To build skills that encourage			
		functional conflict and discourage			
		dysfunctional conflict			
		e) To understand the challenges of			
		managing virtual project teams			
		f) To recognize the importance of the			
		project manager's behavior in			
		shaping how a team performs			
4.4		10. We will know that the learner is		4.4	
11	Know how to manage		1.1	11	1
	interorganizational	able to understand how to			
	relations	interorganizational relations if the			
		learner is able:			
1		a) To understand the need and value			
		a) To understand the need and value of engaging in project partnering			
		<ul> <li>a) To understand the need and value of engaging in project partnering</li> <li>b) To be able to set and implement a partnering arrangement on a major</li> </ul>			
		<ul> <li>a) To understand the need and value of engaging in project partnering</li> <li>b) To be able to set and implement a partnering arrangement on a major project</li> </ul>			
		<ul> <li>a) To understand the need and value of engaging in project partnering</li> <li>b) To be able to set and implement a partnering arrangement on a major</li> </ul>			
		<ul> <li>a) To understand the need and value of engaging in project partnering</li> <li>b) To be able to set and implement a partnering arrangement on a major project</li> <li>c) To understand why project partnering efforts fail</li> <li>d) To develop an evaluation</li> </ul>			
		<ul> <li>a) To understand the need and value of engaging in project partnering</li> <li>b) To be able to set and implement a partnering arrangement on a major project</li> <li>c) To understand why project partnering efforts fail</li> <li>d) To develop an evaluation procedure for evaluating partnering</li> </ul>			
		<ul> <li>a) To understand the need and value of engaging in project partnering</li> <li>b) To be able to set and implement a partnering arrangement on a major project</li> <li>c) To understand why project partnering efforts fail</li> <li>d) To develop an evaluation</li> </ul>			
		<ul> <li>a) To understand the need and value of engaging in project partnering</li> <li>b) To be able to set and implement a partnering arrangement on a major project</li> <li>c) To understand why project partnering efforts fail</li> <li>d) To develop an evaluation procedure for evaluating partnering arrangements that results in early detection of potential problems</li> <li>e) To be able to practice principle</li> </ul>			
		<ul> <li>a) To understand the need and value of engaging in project partnering</li> <li>b) To be able to set and implement a partnering arrangement on a major project</li> <li>c) To understand why project partnering efforts fail</li> <li>d) To develop an evaluation procedure for evaluating partnering arrangements that results in early detection of potential problems</li> <li>e) To be able to practice principle negotiation</li> </ul>			
		<ul> <li>a) To understand the need and value of engaging in project partnering</li> <li>b) To be able to set and implement a partnering arrangement on a major project</li> <li>c) To understand why project partnering efforts fail</li> <li>d) To develop an evaluation procedure for evaluating partnering arrangements that results in early detection of potential problems</li> <li>e) To be able to practice principle</li> </ul>
